February 8th-12th

Parent-Teacher Conferences

Parent-Teacher Conferences are scheduled for the evenings of March 9th, 11th, and 17th. However, I am unable to conduct conferences on the evening of March 17th and instead will be holding conferences on March 10th.

On February 12th, you will be able to check the Douglass website www.douglasselementary.com for the conference sign-ups using our scheduling system, PTC Wizard. If March 10th works best for your family, please send me an email with the time you would like to meet. If none of the available dates/times work for your family, please let me know and we can make other arrangements. Likewise, if you are unable to access sign-ups online, please let me know and I will email you with whatever times remain open. Thank you for your flexibility!

Weather

Next week, we will begin our science unit that focuses on the study of weather and air. We will be conducting numerous experiments in class, so please ask your children what they have been learning. Additionally, we are very fortunate to have NOAA and other science research organizations located right here in Boulder! If you have any expertise in the area of science and would be willing to be a guest speaker, please let me know. It would be wonderful to highlight science careers in our community. Thanks!

Also, I would like to thank all of the parents who graciously volunteered their time to help with the Ikidarod this year! We could not have done it without you!
